Software Requirements

Published on 01/27/2022

Basic Requirements

Desktop Web Browser: Lytho Workflow is supported in the latest versions of Google Chrome, Mozilla Firefox, and macOS Safari.

> ℹ️ We recommend using Google Chrome as your default desktop browser for the best experience with Lytho Workflow. Read more (https://support.google.com/chrome/answer/95346) on supported operating systems, system requirements and downloading and installing Google Chrome.

Tablet Web Browser: Review + Approval is responsive and compatible with the built-in web browser on most tablet-sized devices (700 pixel minimum length or width).

Internet Connection: A reasonably sufficient high-bandwidth internet connection to facilitate upload and display of visual and multimedia content.

We suggest, in today's fast moving web environment, that you stay current with your browser version, operating system and all system updates. Whether you are on Microsoft Windows or macOS, your experience will be optimized if you stay current with recommended upgrades and system maintenance.
