Release Notes - September 30, 2019

Published on 01/27/2022

New Features

inMotion ignite Review app for iOS

With the inMotion ignite Review app for iOS (https://lytho.knowledgeowl.com/help/inmotion-ignite-review-app-for-ios-and-android), eliminate bottlenecks in your process and never miss a review again by giving feedback right from your phone! Within the app you can view a list of all your outstanding reviews, add your own comments to a proof, and submit approval statuses. Download the app from the Apple App Store (https://apps.apple.com/us/app/inmotion-ignite-review/id1479464548).

Improvements

Request lists now show the status of submitted requests.

Accepted requests also include the status of associated work.
