Release Notes - April 5, 2021

Published on 01/27/2022

New Features

Copy Files to Associated Work

Have every file you need at your fingertips! Now you can easily copy files included in a request to the associated work (https://guide-ignite.inmotionnow.com/help/request-management#copying-request-files-to-associated-work) when you accept the request. Select the relevant files and see them appear on the correct task, project, or campaign! Head over to Features in your Account Settings to enable this feature.

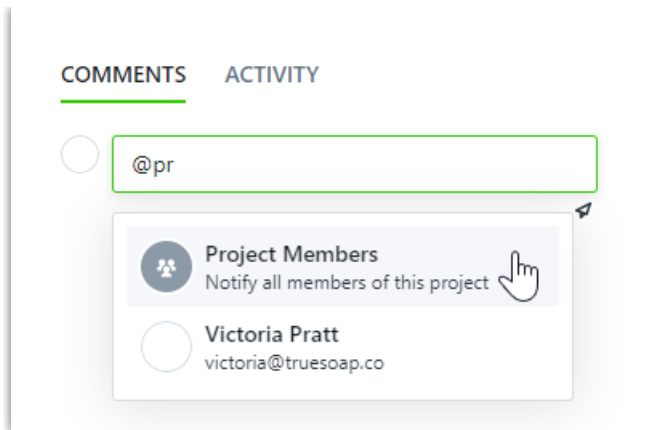

Improvements

@mention Project Team

Need to get input from all the members of a project? Now you can @mention all members of a project (https://guide-ignite.inmotionnow.com/help/collaboration#-mention-project-team) in the comments on a project or task at once to keep everyone in the loop.

Feeling nostalgic? Here's what we released...

- **Six months ago: Password Management** (https://guide-ignite.inmotionnow.com/help/release-notes-10-12-2020)

- **One year ago: Project & Campaign Auto-Naming** (https://guide-ignite.inmotionnow.com/help/release-notes-4-4-2020)

- **Eighteen months ago: Review app for iOS** (https://guide-ignite.inmotionnow.com/help/release-notes-09-30-2019)

- **Two years ago: Campaign Management** (https://guide-ignite.inmotionnow.com/help/release-notes-04-13-2019)
