

Release Notes 1.15.0

Published on 01/27/2022

New Features

Associate Requests to Traffic Managers

Need more control over which traffic manager gets assigned to approve each request? Now you can automatically notify and assign specific users to a request based on the information provided in each form! Reach out to our Customer Success team (https://guide-ignite.inmotionnow.com/help?to=/help/contact-feedback) to configure this feature.

Time Tracking Enhancements

Now that you can view total time tracked on each task or proof within a project, the project details view is even more helpful.

In addition, we've introduced a new permission that allows managers to track and edit time on behalf of others.

| 6 | Settings | Permissions | |
|--------------|--|---|-------|
| Q (~ | Roles Permissions Tags | Manage Team Members Users with this permission can add, edit, or deactivate Team Members. | Edit |
| • | Custom Fields Project Statuses | Manage Templates Users with this permission can create, edit, or delete all templates. | Edit |
| ע ע ג | General personal settings Profile | Manage Tracked Time Users with this permission can add, edit, or remove tracked time on behalf of other Team Members. | Close |
| 8 8 00 | Password App Notifications Email Notifications | Admin Project Manager Team Member Vendor | |
| | | Save Cancel Requests | |
| | | Approve Request Users with this permission can approve a request to provide work to Team Members. | Edit |
| | | Create Request Users with this permission can create a work request for your team. | Edit |
| ¢ | | View All Requests Users with this permission can view all requests. Without this permission, users can only view requests they have created or are allowed to approve. | Edit |
| ? ()) | | Projects | |

Lastly, say goodbye to making sure your team is tracking the time they're supposed to! We've added a new setting that enables you to require users to enter time before they can complete their work.
