

# Release Notes - September 13, 2021

Published on 01/27/2022

## New Feature

### User Activity Log

A new "Activity" tab in people will show a log of actions taken against a user record. Examples of activities captured in this log are: user created, notification settings changed, and password requested.

The screenshot shows a user profile for Christy Drucker with a close button (X) in the top right. Below the name is a dropdown menu set to "Active". A navigation bar contains tabs for OVERVIEW, AVAILABILITY, NOTIFICATIONS, and ACTIVITY, with the ACTIVITY tab selected and highlighted in green. The activity log lists five events:

- Paul Morad turned the *My review expired* App notification **On** (September 8th at 4:21 pm)
- Paul Morad turned the *My proof is sent out for review* App notification **On** (September 8th at 4:21 pm)
- Christy Drucker turned the *My review expired* Email notification **Off** (September 8th at 4:15 pm)
- Christy Drucker turned the *My review expired* App notification **Off** (September 8th at 4:15 pm)
- inMotionNow Support created user *Christy Drucker* (December 13, 2018 at 2:42 pm)

### Feeling nostalgic? Here's what we released...

- **Six months ago: Improvements to Auto-Numbering** (<https://guide-ignite.inmotionnow.com/help/release-notes-2-22-2021>)
