

Release Notes - May 10, 2021

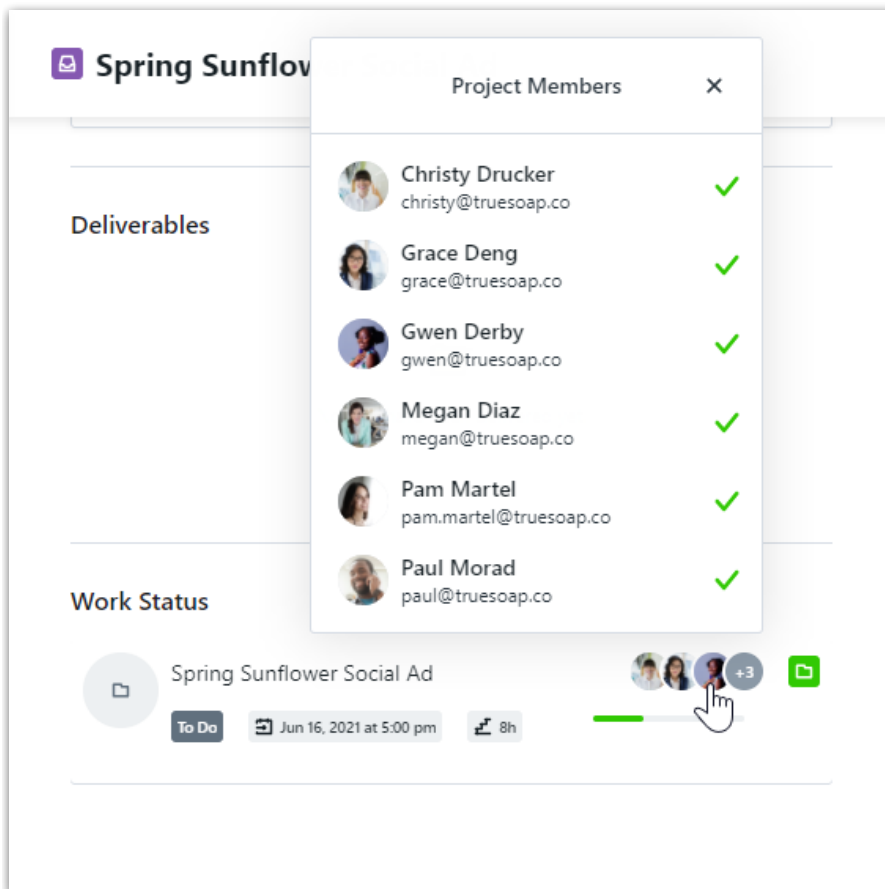

Published on 01/27/2022

Improvements

More Transparency with Requester Insights

Requester Insights (<https://guide-ignite.inmotionnow.com/help/requester-insights>) provide your requesters with transparency and help avoid one-off status updates. Now, you can provide your requesters with even more information by turning on **Share Associated Work Members** in your feature settings, allowing your requesters to view team members assigned to work items.

Available Only to Business and Enterprise Customers

Exporting in the (Time) Zone

Sharing reports in your organization is essential, so let's make it easy! Now when you [export reports](https://guide-ignite.inmotionnow.com/help/reports#exporting-a-report) (<https://guide-ignite.inmotionnow.com/help/reports#exporting-a-report>) with dates and times, these will be based on your personal time zone settings.

Overdue Work

Description
Use this report to understand what tasks and proofs are past due
