

# Release Notes - December 6, 2021

Published on 01/27/2022

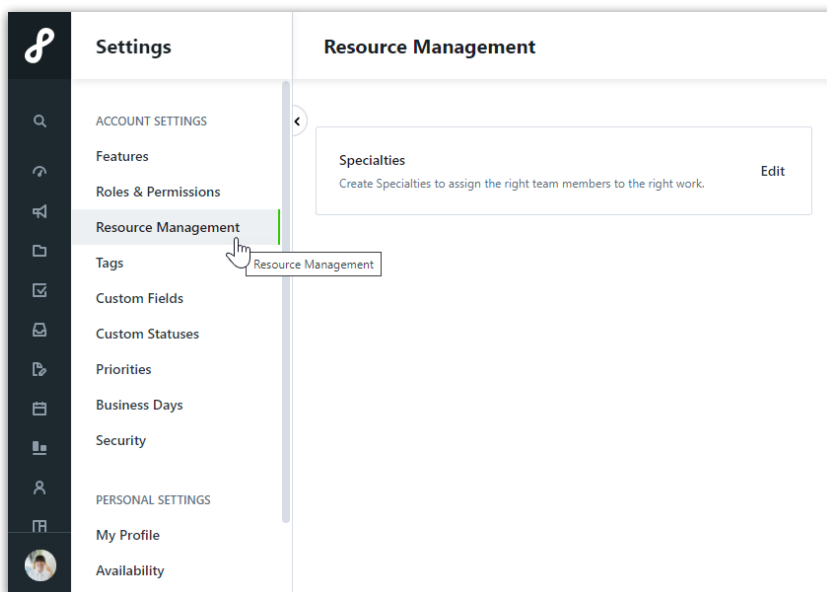

## Improvements

### Improvements to Workload

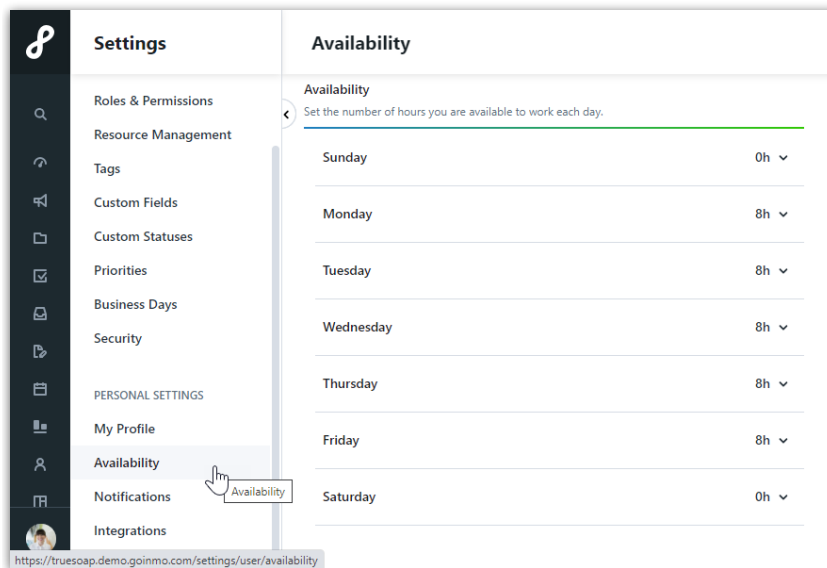

Now you can view overdue work items in the [Workload](https://guide-ignite.inmotionnow.com/help/resource-management-workload#viewing-overdue-work-in-workload) view. Turn on the toggle in **Options** to see overdue items display in red on today's date. *Available only to Business and Enterprise Customers*

Resource management has moved to its own page under Account Settings.

## Personal availability has moved to its own page in Personal Settings

## Quality of Life Improvements

- Updated copy for Workload where “# work items” will now read “#Tasks/Proofs”
- Activity Logs now indicate when LOE was adjusted due to removing a user or specialty placeholder who had hours manually allocated to them

## Feeling nostalgic? Here's what we released...

- **Six months ago: Priorities** (<https://guide-ignite.inmotionnow.com/help/release-notes-6-21-2021>)
- **One year ago: Filter in Calendars** (<https://guide-ignite.inmotionnow.com/help/release-notes-11-30-2020>)
- **Eighteen months ago: Reviews Report** (<https://guide-ignite.inmotionnow.com/help/release-notes-6-15-2020>)
- **Two years ago: Gantt Views** (<https://guide-ignite.inmotionnow.com/help/release-notes-12-9-2019>)
