

# Release Notes - January 24, 2022

Published on 01/27/2022

## Improvements

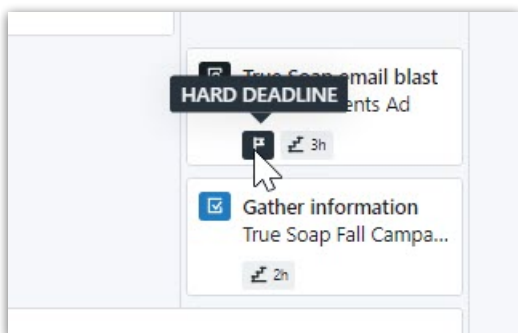

### React to Comments with Emojis

Emojis are a great way to quickly indicate that important messages have been read or show excitement and support. Now you can emoji react to comments in Requests, Campaigns, Projects, and Work!

### View Work Item LOE and Priority in Workload

Now when [viewing individual work items](https://guide-ignite.inmotionnow.com/help/resource-management-workload#viewing-individual-work-items-in-workload%C2%A0) (<https://guide-ignite.inmotionnow.com/help/resource-management-workload#viewing-individual-work-items-in-workload%C2%A0>) in Workload you'll see the Level of Effort and Priority displayed, providing critical information at-a-glance to help make more informed assignment decisions. Additionally, you can now hover over truncated project and work item names to view the full name.

### Quality of Life Improvements

- Updated language from “Archive All” to “Archive Selected” when making bulk actions to provide better clarity.

- Updated language from “Clear” and “Remove Designer” to “Clear Person” and “Remove Specialty” when clearing or removing specialties.

### Feeling nostalgic? Here's what we released...

- **Six months ago: Access Profiles from Users Reports** (<https://guide-ignite.inmotionnow.com/help/release-notes-8-2-2021>)
- **One year ago: The Form Template Builder** (<https://guide-ignite.inmotionnow.com/help/release-notes-1-11-2021>)
- **Eighteen months ago: Improved Notifications** (<https://guide-ignite.inmotionnow.com/help/release-notes-7-27-2020>)
- **Two years ago: Bulk Date Shifting in Gantt Views** (<https://guide-ignite.inmotionnow.com/help/release-notes-1-13-2020>)
