# Release Notes - July 2022

Published on 07/01/2022

New Features

Easily View Template Details

Now when clicking on a template thumbnail in Create & Publish you'll see a template preview, similar to what is shown in the Asset Manager, creating a more intuitive flow. The template preview panel will show the template name, description, tags, and available output types, making it easier to select the correct template for your specific needs.

Add Tags to Brand Guides

Tags are a powerful tool when it comes to searching your assets, templates, or publications. Now you have the ability to apply tags to your brand guides within the brand guide settings. Use the filter panel or suggested tags in the Brand Center to easily find the brand guide you're looking for!
