

WordPress

Published on 07/06/2022

Using the Lytho WordPress plugin, you are able to publish images, video's, and other assets directly to your WordPress website. The Lytho WordPress plugin enables you to directly search and filter through all assets within your Lytho environment without leaving WordPress.

Once you select an asset, it will be imported in the WordPress CMS and allows you to use it in your webpages.

Benefits

- Instantly use assets from your Lytho (Single Source of Truth) environment in your WordPress platform
- Save time on selecting/uploading assets into your website
- Always using the latest version of your assets
