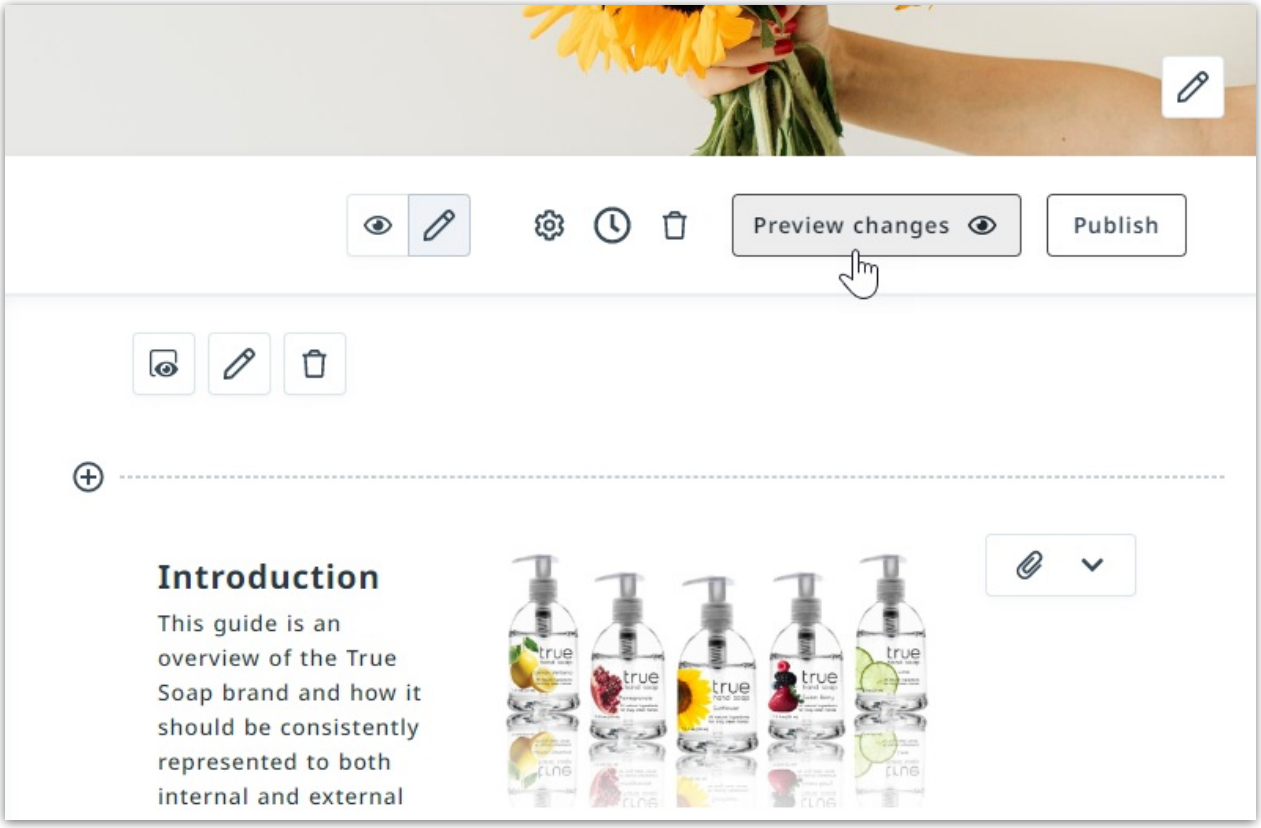
Improvements

Preview Your Brand Guides!

A new option to **Preview changes** is now available when creating and editing brand guides (https://guide.lytho.com/help/creating-brand-guides), allowing you to quickly view changes and continue editing without having to publish before you are ready.



Control by the Seconds with Gallery Blocks

Now when editing a Gallery block (https://guide.lytho.com/help/content-block-tools#gallery) in brand guides you'll see an option to adjust the image transition time, giving you more control over how your content is displayed.

Add Watermarks to Your Assets in Bulk

The batch edit bar (https://guide.lytho.com/help/navigating-the-asset-manager#multi-selecting-assets) now provides the ability to add the Lytho watermark in the **PROTECTION** tab, making it quicker and easier to protect your content.
