Improvements

Easier Prioritization with Kanban

[Kanban views](https://guide.lytho.com/help/kanban-views) (<https://guide.lytho.com/help/kanban-views>) are a great visual way to stay on top of your work and now they provide even more critical information at-a-glance! A new badge showing Level of Effort helps quickly prioritize what to get started on next.

Get Emoji Notifications!

A new option to receive notifications for emoji reactions keeps you informed of who is reacting to your comments so you don't miss anything. Toggle on **Someone reacts to my comment with an emoji** in your [notification settings](https://guide.lytho.com/help/notifications#notification-preferences) (<https://guide.lytho.com/help/notifications#notification-preferences>) to receive in-app notifications.

Improved Request Sharing

Now when a request is shared with a user, they will receive notifications when deliverables are made available, cutting down on back-and-forth and ensuring the right people stay informed.
