

Release Notes - November 16 2022

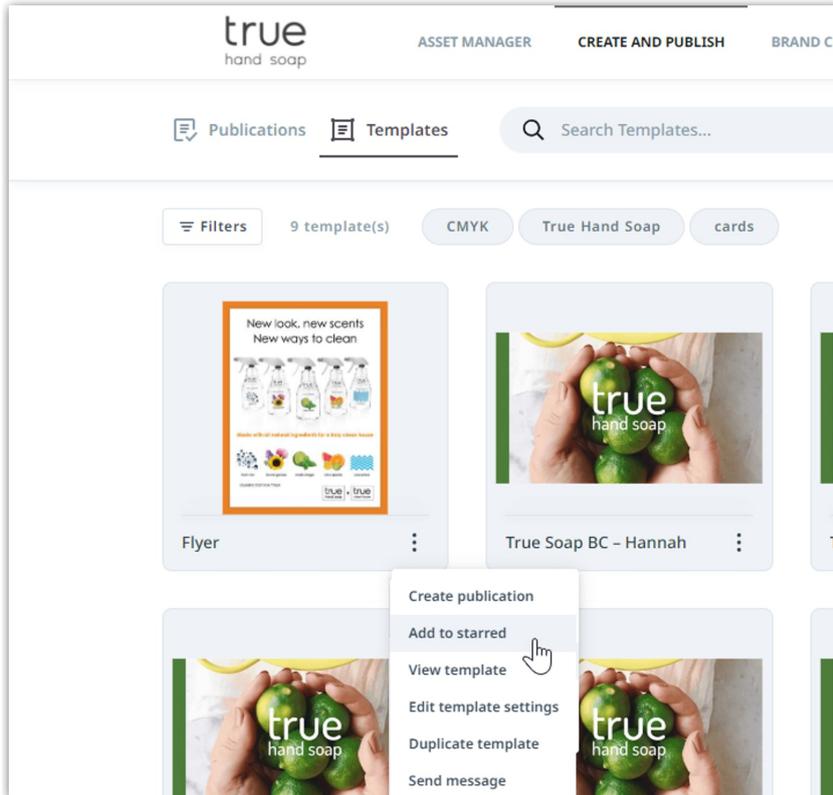

Published on 11/14/2022

Improvements

Highlight Your Favorite Templates*

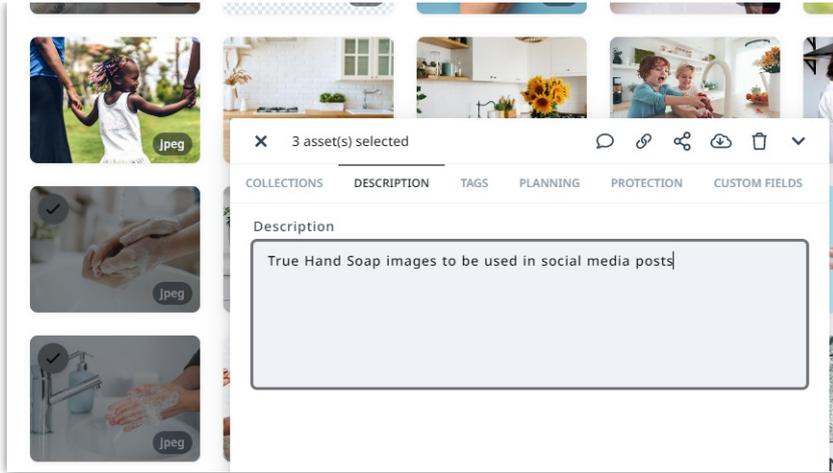

Users now have the ability to "Star" templates making them easy to find when needed. Select the star icon in **Templates** to view only your starred templates and save time searching for the right one.

**Available to Customers with Create + Publish*

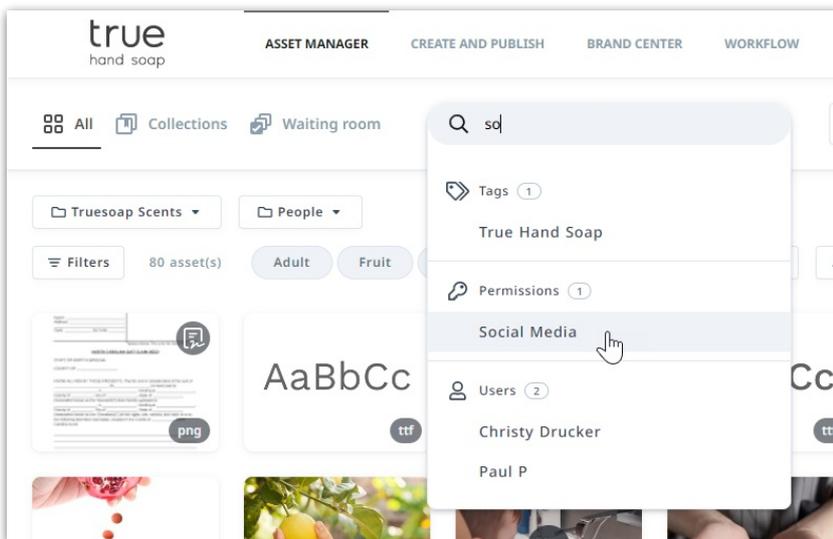

Bulk Action Descriptions for Assets

Need to add the same instructions, description, or other information to multiple assets? A new tab, **Description**, is now available in the batch edit bar, making it easy to add descriptions to multiple assets at once.

Search For Assets By Permission

Permissions allow you to give User Groups access to specific assets when restrictions are needed. Now you can easily locate assets assigned a specific permission using the search bar. Similar to Tags, account permissions will automatically populate as you type into the search bar and clicking a permission will provide a view of all assets assigned that permission.
