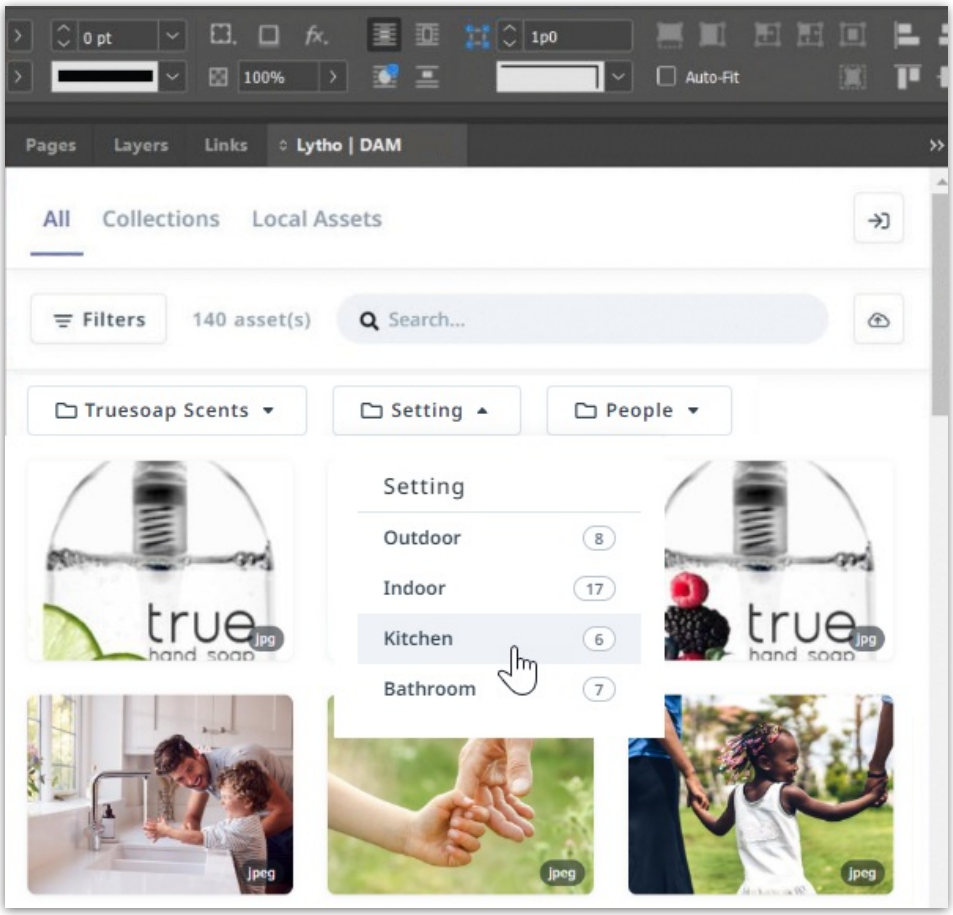
Release Notes - February 22, 2023

Published on 02/06/2023

Improvements

Leverage the Power of Tag Menus in Adobe

Tag menus (https://guide.lytho.com/help/organizing-tags#tag-group-menus) are a great way to easily locate assets with commonly used tags. Now you can access your tag menus directly in the DAM plugin (https://guide.lytho.com/help/adobe-creative-cloud) for Adobe CC to quickly locate the assets you need.



Sitecore Plugin for Lytho DAM

The Sitecore Plugin for Lytho DAM allows for seamless integration between Lytho assets and Sitecore's content management system. Once the plugin is installed, you'll be able to pull assets from Lytho directly into Sitecore for content creation.

Quality of Life Improvements

- Word documents are now supported in the Lytho DAM plugin for Adobe InDesign, making it possible for you to place these files from Lytho DAM into your workspace.
