

Release Notes - February 20, 2023

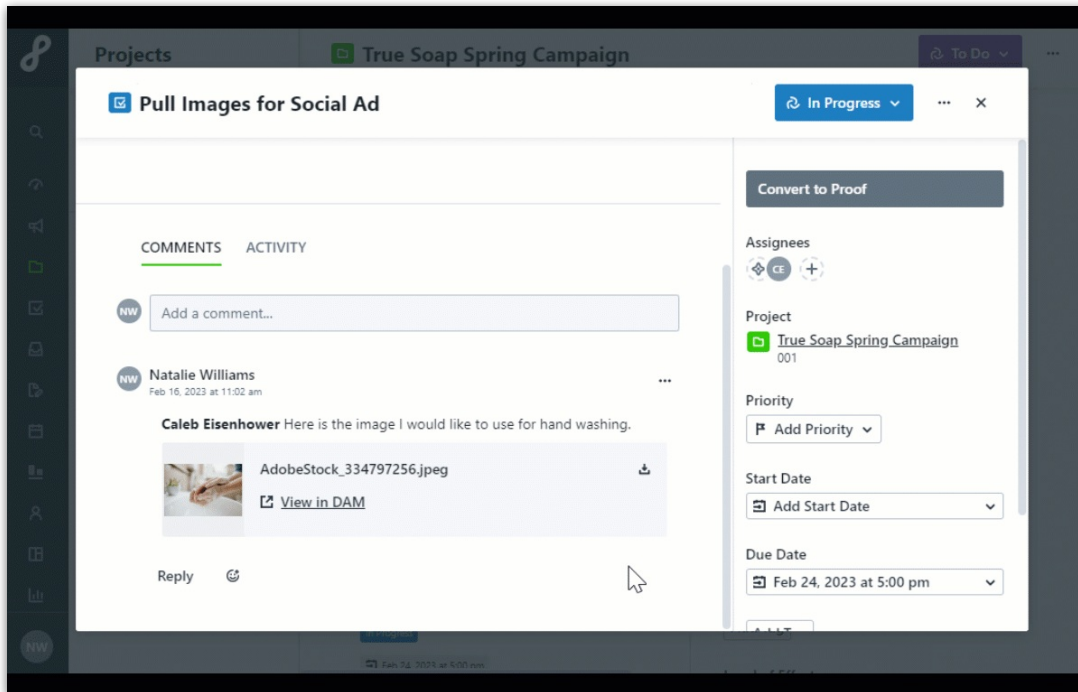

Published on 02/16/2023

Improvements

Easily View Your Assets in DAM*

You can now link DAM files directly to Workflow items with our expanded, cross-platform integration, eliminating friction caused by the antiquated download/upload file sharing cycle. This improved interactivity means files, metadata, presets, and crop options are just a click away, so you can quickly grab the file you need, verify usage instructions, and make adjustments all within the Lytho platform, saving you time and hassle. The ability to view assets in the DAM is dependent on user permissions within the DAM, so your assets maintain any restrictions.

**Available only to customers with Workflow + DAM. Interested in learning more about this functionality? [Check out the Lytho DAM!](https://www.lytho.com/digital-asset-management-software/)*

Quality of Life Improvement:

Bulk Actions in table views now boasts a more intuitive look! Archive and unarchive work items with fewer clicks.
