Published on 03/13/2023

New Features

Push Workflow Deliverables into DAM

The creative process doesn't stop when an asset is approved for delivery. The asset's lifecycle is just beginning as it's now ready to go to market to drive outcomes. Team members can easily send deliverables directly from Workflow to their Lytho DAM (https://guide.lytho.com/help/managing-proof-files#sending-files-from-workflow-to-dam-) for quick and confident sharing, storing, and safeguarding. This interoperability between Workflow and DAM keeps operations moving and helps assets make their maximum impact.

Available only to customers with Workflow + DAM.

Feeling nostalgic? Here's what we released...

- **6 months ago: Easier Prioritization with Kanban** (https://guide.lytho.com/help/release-notes-wf-137)

- **1 year ago: Customize the Create Request Modal** (https://guide.lytho.com/help/release-notes-wf-123)

- **18 months ago: Move Work Groups to Other Projects** (https://guide.lytho.com/help/release-notes-8-16-2021)
