## New Features

### Bulk Date Shifting

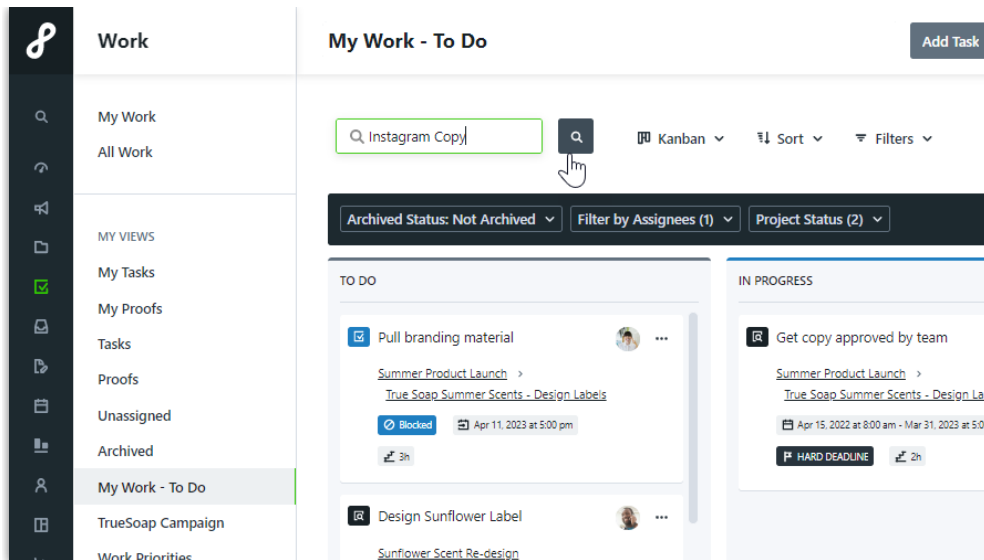

Scope often changes for creative teams, and the ability to make quick and accurate updates to date fields across multiple work items saves time, ensures alignment, and encourages adoption. Now with [bulk actions in table views](https://guide.lytho.com/help/table-views#bulk-actions-in-table-views) (<https://guide.lytho.com/help/table-views#bulk-actions-in-table-views>), you can shift the start and due dates of multiple work items at once. Leverage custom views for whole projects and campaigns to seamlessly adjust timelines when you need to.

The screenshot shows a table view interface with a modal open for bulk date shifting. The table has columns for 'WORK NAME', 'START DATE & TIME', and 'DUE DATE & TIME'. Four work items are selected, each with a green checkmark: '1st draft of copy due', 'Get copy approved by team', 'Pull Images for Social Ad', and 'Send deliverable to requester'. The modal, titled 'Shift Dates', contains a 'Start & Due Dates' dropdown set to 'Forward', a 'Days' dropdown set to '10', and a 'Send Notifications' checkbox which is checked. A green 'Review' button is located at the bottom right of the modal. The bottom of the interface shows '4 Work Items Selected' and a 'Dates' icon.

### Search in Work Views

Search for work items within the views you prefer. A search bar in Work views allows you to search on the Work Name column to easily find the items you're looking for without having to leave your favorite table, list, or kanban view.
