Improvements

Enhanced Visibility with Change Requests

Stay informed of Change Requests (https://guide.lytho.com/help/change-requests) needing your attention with a new display in the Dashboard Hot Sheet.

Quality of Life Improvements

- Project views are no longer filtered by default. Add filters as needed for when you want a more customized view.
- Now stakeholders can submit change requests (https://guide.lytho.com/help/change-requests) that respect accepted dates even if you've embedded date restrictions in your form! You'll still have full control over accepting or updating the request.
