

# Release Notes - April 15, 2024

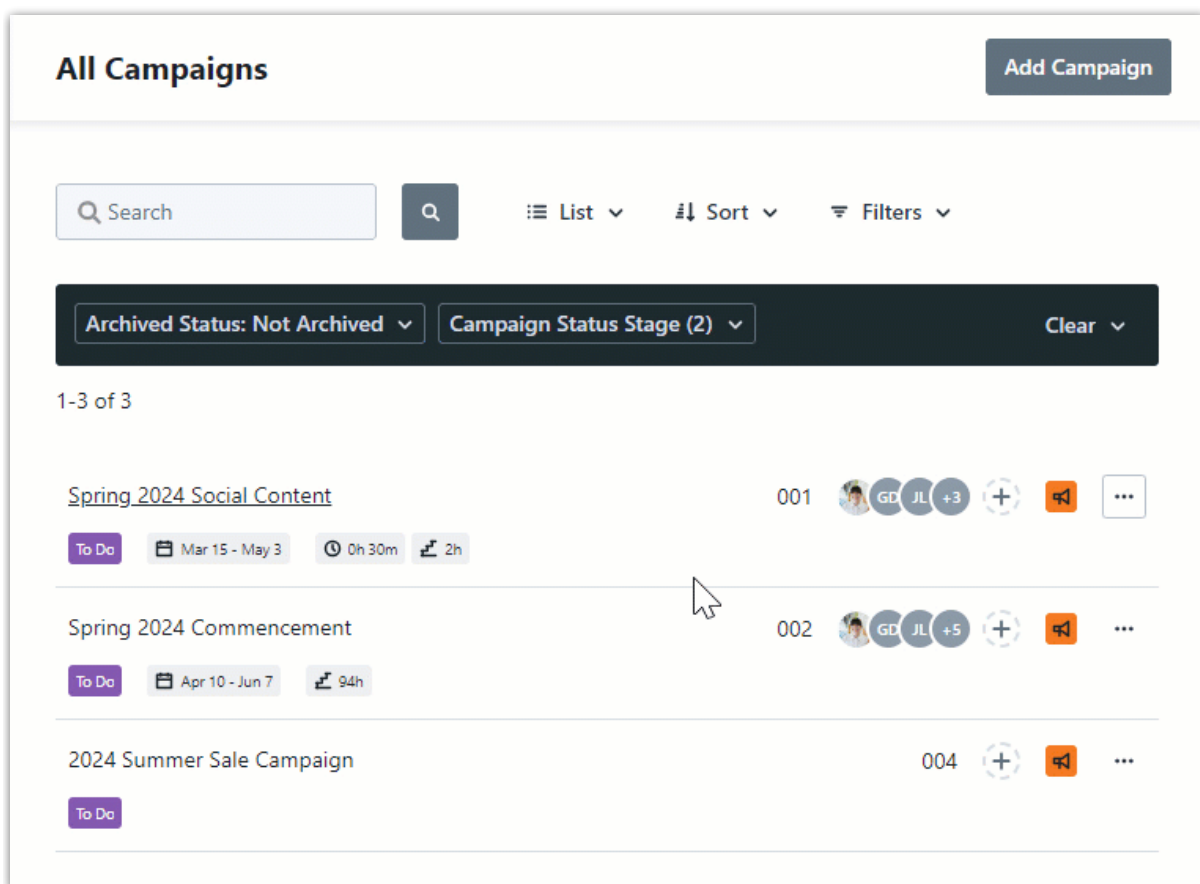

Published on 03/29/2024

## New Features

### Custom Color Coding

Foster accessibility while injecting vibrancy into custom views and project management! [Custom color coding](https://guide.lytho.com/help/custom-color-coding) (<https://guide.lytho.com/help/custom-color-coding>) creates a shared visual language within the team, providing a quick and easy way to take in information. Users don't need to click into items and read the details; instead, a quick scan of a colorized custom view provides the pertinent info at a glance.

Click on the badge to customize items based on brand, project team or specialties, deliverable type, audience, or requesting department. The possibilities are boundless, colorful, and WCAG 2.0 AA compliant!

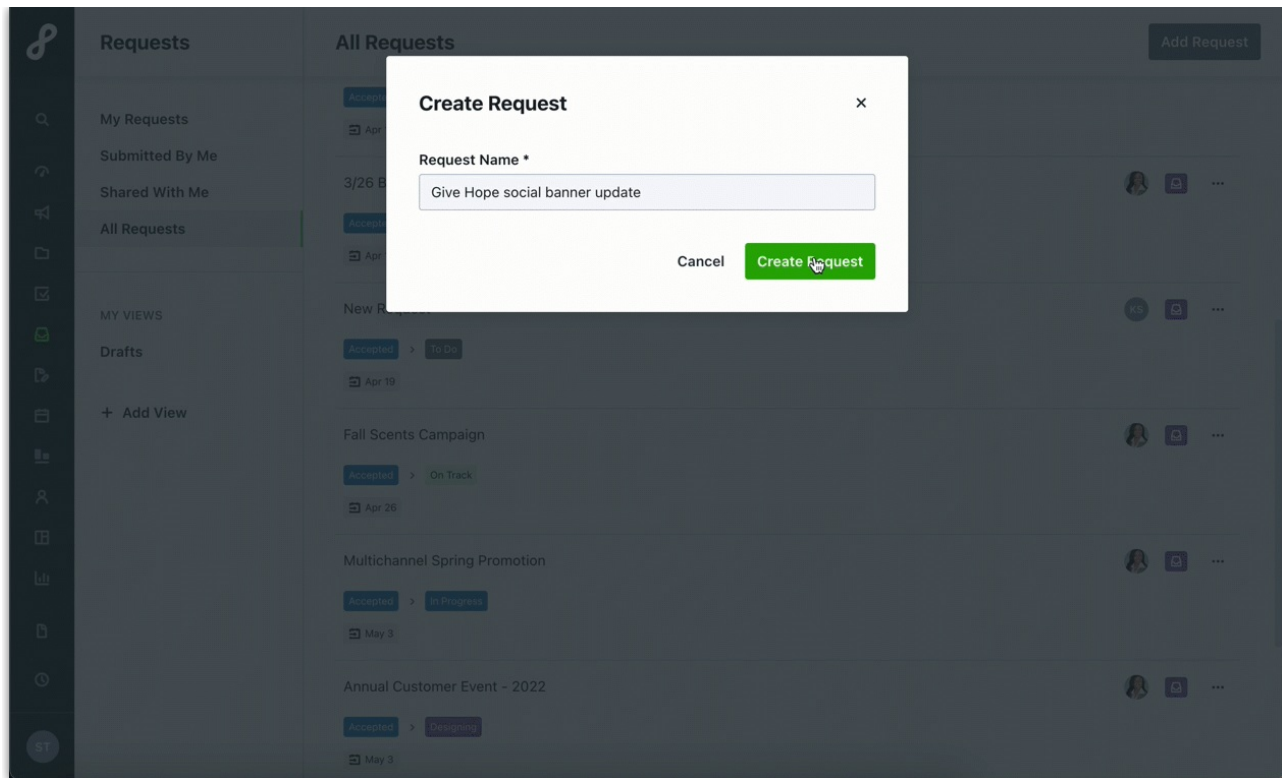

The screenshot displays the 'All Campaigns' interface. At the top right is an 'Add Campaign' button. Below the header is a search bar and navigation controls for 'List', 'Sort', and 'Filters'. A filter bar shows 'Archived Status: Not Archived' and 'Campaign Status Stage (2)', with a 'Clear' button. The list shows 1-3 of 3 items. The first item, 'Spring 2024 Social Content', has a 'To Do' badge, a date range 'Mar 15 - May 3', a duration '0h 30m', and a '2h' badge. It is followed by a row of color-coded badges: '001', a person icon, 'GD', 'JL', '+3', a plus icon, an orange square, and a three-dot menu. The second item, 'Spring 2024 Commencement', has a 'To Do' badge, a date range 'Apr 10 - Jun 7', and a '94h' badge. It is followed by a row of color-coded badges: '002', a person icon, 'GD', 'JL', '+5', a plus icon, an orange square, and a three-dot menu. The third item, '2024 Summer Sale Campaign', has a 'To Do' badge and is followed by a row of color-coded badges: '004', a plus icon, an orange square, and a three-dot menu.

### Request File Markup

When it comes to providing directions for edits to an asset, showing is often so much easier than telling. Bridge communication gaps between Requesters and Acceptors with the ability to [mark up request attachments](https://guide.lytho.com/help/request-file-markup) (<https://guide.lytho.com/help/request-file-markup>)!

Decrease intake cycle duration, reduce confusion, and save designer time with fewer review versions when Requesters can easily provide accurate direction for desired changes.

## Feeling nostalgic? Here's what we released...

- **6 months ago: Rich Text Editing in Descriptions** (<https://guide.lytho.com/help/release-notes-wf-163>)
- **1 year ago: Push Workflow Deliverables into DAM** (<https://guide.lytho.com/help/release-notes-wf-151>)
- **18 months ago: View LOE in Kanban Views** (<https://guide.lytho.com/help/release-notes-wf-137>)
- **2 years ago: View Overdue Work in Workload** (<https://guide.lytho.com/help/release-notes-wf-100>)
